3. As of our last monthly exec meeting, only three annual due payments have not been made. And our balances were; checking \$9,303.58 and savings \$8,000.
4. BHOA members, please conserve water as much as possible. Populations and consumptions grow, water sources do not. The City of Georgetown has been utilizing an effective water conservation program for the last five years, but this success takes each consumers participation. Visit the City of Georgetown website for more information.
